Educator License Levels

There are three educator license levels.

1. **Professional Educator License**
   All of the requirements have been met and competencies demonstrated; an approved educator preparation program **was completed**. This is a five-year unencumbered, renewable license.

2. **Associate Educator License**
   A minimum number of requirements have been met and/or competencies demonstrated; an approved educator preparation program **was not completed**. This is a temporary, non-transferrable license that qualifies an educator to work for three years in a Utah school.

3. **Local Education Agency (LEA) Specific Educator License**
   Under direction of the local governing boards of school districts or charters; an approved educator preparation program **was not completed**. This is an emergency license that only qualifies an educator to work in the requesting LEA. Approved content areas are not printed on this emergency license.

Each educator license has a **license area**; some have an **endorsement** to indicate a specialization in a content area or particular set of skills. License areas of concentration and endorsements have parallel levels to the educator license.
Note: If the expiration date field is blank, then the license area and/or endorsement expires at the same date as the license expiration date.

This license status is valid effective the print date posted below. Please verify current license status using the Utah Educator Licensing Lookup tool.
